Dear Prospective Team Member:

We are very excited that you are considering your involvement with our organization by participating in the short term mission field. Our prayer is for you to be encouraged to pursue serving others. We are honored that you may be considering Sacred Portion Children's Outreach as an avenue for this endeavor.

The application process is our opportunity to get to know you and to confirm that you will be a fit for the team you are considering. We want to use this information that we are gathering to insure your health, comfort, and safety.

For long term missions projects there is an additional interview process. This process also helps us gauge whether your talents will fit within the team; either way we will keep this information on file and keep you in mind for any future service opportunities.

May the Lord's grace and wisdom guide you as you consider how you might best serve His orphaned and abandoned children of this world.

In Him,

Craig Druckenmiller
President, SPCO
